- | | |
|---|---|
| VS Nikaten College +2 | Tinkune, Kathmandu 2019-2020 |
| <ul style="list-style-type: none">Cumulative GPA 3.65/4.00President of Rising Innovator Club | |
| Texas International College BSC CSIT | Mitrapark, Kathmandu 01.2020-Present |
| <ul style="list-style-type: none">Currently at 4th Semester | |

Additional Courses

- Completed a year of course for UI/UX under a Mentor.
 - Multiple courses for Photograph manipulation, Color Grading.
 - Currently learning more about HTML/CSS/JAVA in-depth under a Mentor.
-

Experience

Hackathon Participant – SecurityPal’s hackathon:

- We were a Group of 5 individuals working on a Problem for lending a land that are left barren on the rural areas. We worked as a mediator between a farmer and a landowner, where we rent a land from a owner and divide the land in many section and approach the farmers.
- I was responsible for looking after the UI/UX part of the project.
- We created a prototype of the Web app for our Project.

Texas International College – A college website:

- I redesigned a Responsive website for my college using HTML/CSS/JavaScript, though it was a demo website I have pushed it in GitHub and lunched it through GitHub.

-><https://ujjwal-budha.github.io/>

IndigoGrills – A Restaurant Website UI:

- IndigoGrills is a Website I built as my final project for the one year course I had been doing with my mentor. I have included many components like animation, Prototyping, Minimal look.

JobGeeks- A Mobile app UI:

- JobGeeks was a Mobile application UI we made as a team. It’s an app that helps you find jobs in various sector such as designing, coding, cooking, teaching.

Multiple Photo manipulations/Color Grading:

- I have edited and created different manipulations using photoshop and lightroom. Which I have published in my social media accounts.

Interests

<u>Reading</u>	<u>Online games</u>	<u>Learning New Stuff</u>
Atomic Habits (James Clear)	Valorant	I love exploring new stuff.
The leader In You (Dale Carnegie)	Genshin Impact	Sometimes it can be finding some cool figma Prototypes (Fire animation, Blob effects).
	Red Dead Redemption 2
